**SECRET****REVISION AND SUPPLEMENT TO THE OCTOBER SYSTEM****INTRODUCTION**

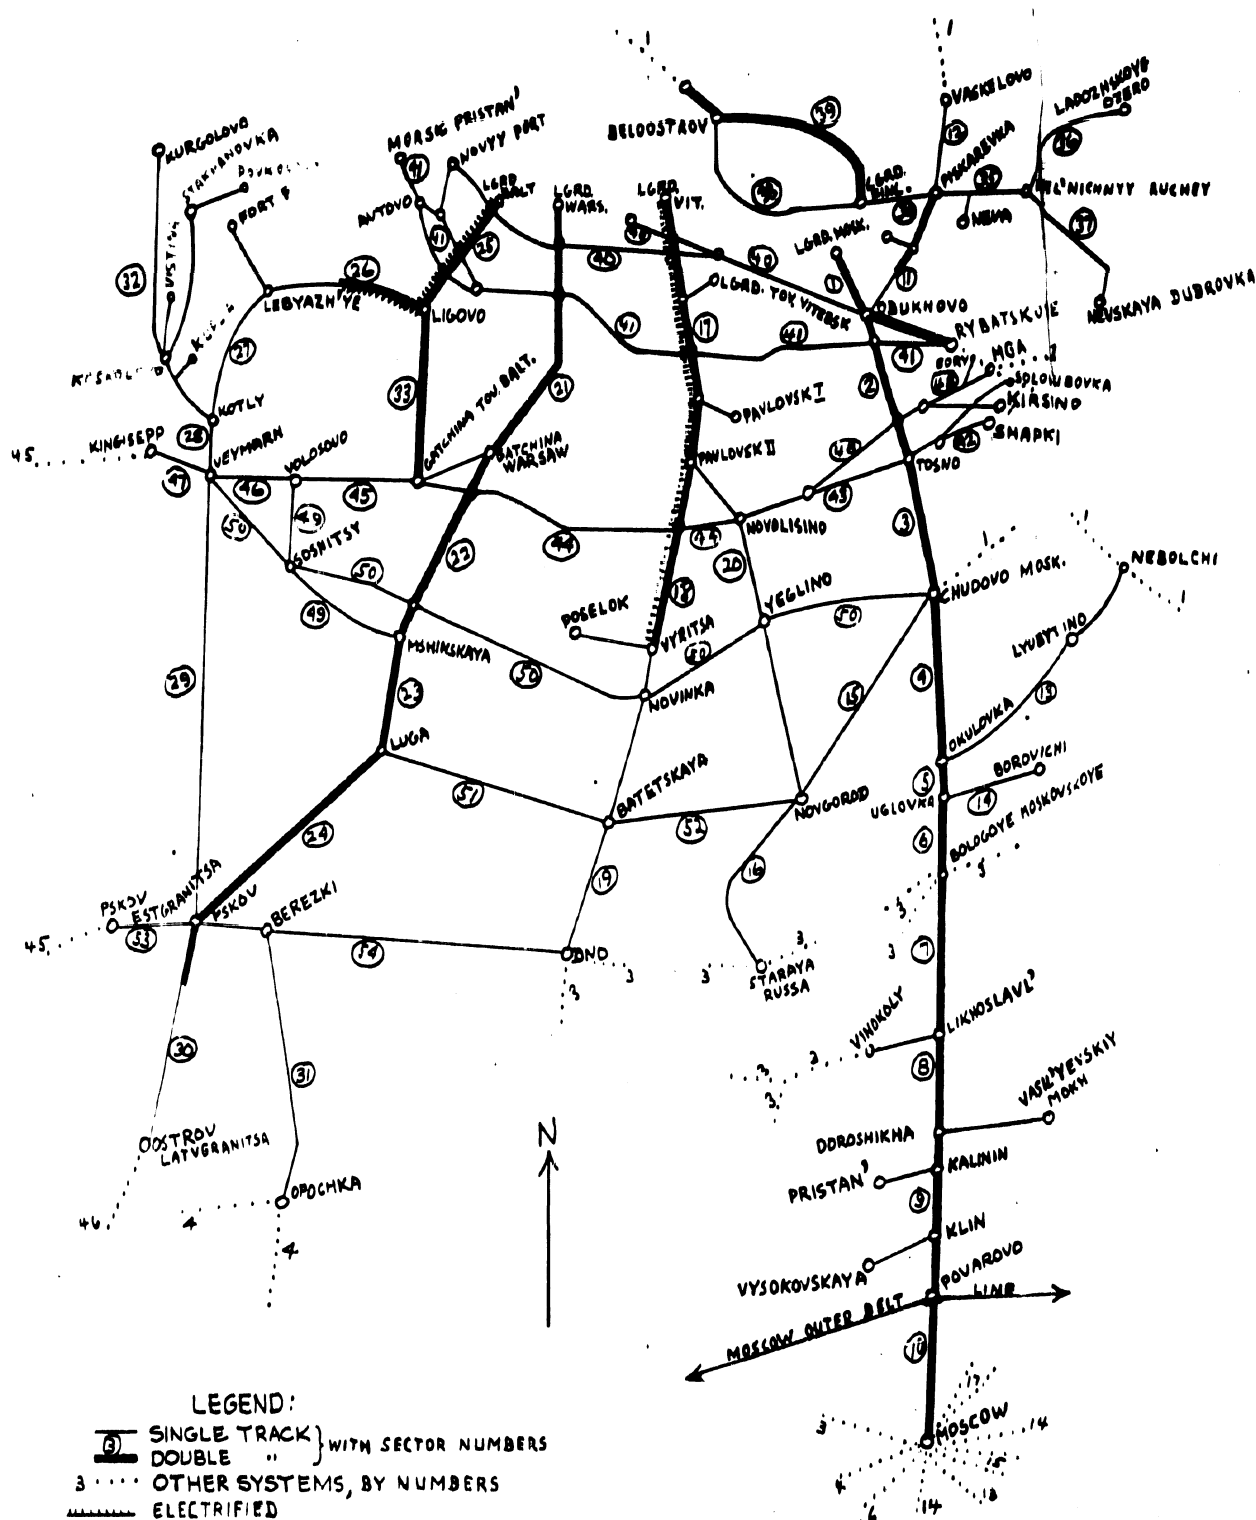

This report is issued for the purpose of revising certain information contained in Special Document Section Report No 71, "The October System" of the railroad systems of the USSR, published 20 June 1947. The sources of information for the revision were Soviet publications dating from 1947-1949 inclusive, such as the Soviet press and official Soviet passenger timetables.

The necessary revisions are keyed to the pages of the SDS report. The schematic sketch accompanying this report incorporates physical changes, such as line extensions, as reported in the Soviet sources. Transliteration conforms with BGN rules.
